FIRST FLOOR

2 STORY, 3 BEDROOM, 2.5 BATH, 1625 SQFT.

Look over this two-story model carefully. The obvious attributes are the generous living spaces, large dedicated Family Room and roomy Kitchen. The Living Room alone boasts nearly 280 square feet of area, perfect for family get-togethers. But the real gem is under the house where you can easily add on more Bedrooms, create a Granny Quarters or just add to the living area. This model offers comfort, an excellent floor plan and more but when the time is right to expand to an even larger home you'll have a great head start. You'll love the flexibility of the Nohona.
