Factory to Jobsite in easy to handle crates  
Always view actual samples for color range

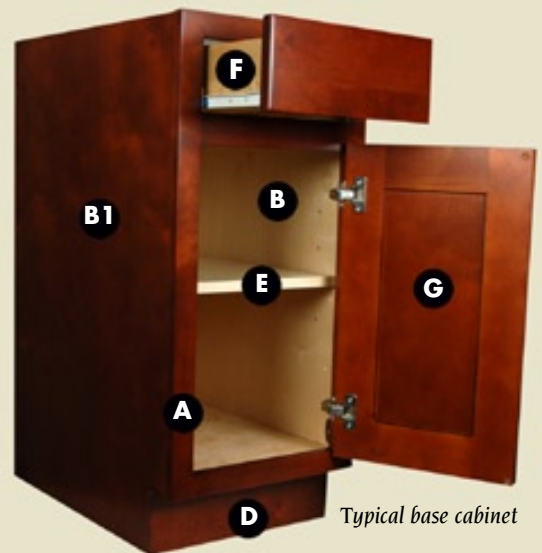

# The Kekoa Cabinet Collection

## Why The Kekoa Cabinet Collection?

**Kekoa**, the **Strong, Brave, Courageous Soldier** epitomizes the motivation for creating this collection. This cabinet, also dubbed "The Warrior", is our project level cabinet line. We engineered "The Warrior" to be tough, strong and lighter but equipped with features and hardware that would allow it to function and look better than its market peer group, while being priced right. Indeed, **Kekoa** is designed and priced for project work but quality has been built in and more importantly that quality is assured by Honsador's "**QualityTouch™**" program. We insist on quality and assure it by placing a Honsador representative at the manufacturing source. Only product that passes the "**Quality-Touch™**" makes it to Hawaii and your project. **Kekoa** is a collection that will stand tall when compared to other project level cabinet lines. Check out the features shown below:

Typical 30" high wall cabinet

Typical base cabinet

### Part A

3/4" x 1-1/2" solid hardwood face frame glued and doweled.

### Part B

@ interiors - 1/2" thick hardwood plywood sides with real wood veneer and natural finish, standard. Thicker plywood and other stain finishes available.

### Part B1

Sides are prefinished and require no finished panels due to concealed joinery.

### Part C

Base and wall cabinets have a 3/16" thick back surrounded by 1/2" Hardwood plywood frame for solid attachment to walls.

### Part D

Base Cabinet Toe kicks are made from 1/2" Hardwood plywood and are covered after installation with a continuous 8 ft. prefinished, 3/16" Hardwood plywood Toe Kick Cover.

### Part E

Heavy duty, 3/4" thick furniture grade, fully banded, full depth adjustable shelves on chrome shelf supports.

### Part F

Drawer boxes are constructed from 5/8" solid, edge glued, clear, Birch or Basswood hardwood sides with 1/4" drawer bottom. Joinery features rabbeted corners, glued and screwed together. Drawer slides are 75#, white, epoxy coated side mounted.

### Part G

Shaker recessed panel is 3/8" Hardwood plywood panel. Mortise and Tenon joinery.

*Assembly: Concealed (interior) cam locks, glue and staple (as needed). Finishes and color vary. View actual sample. All wood parts are natural and will have grain & color variations.*
